

# CANCER PREVENTION STUDY -3

*Research today for a cancer-free tomorrow.*

ENROLLMENT WILL TAKE PLACE AT VARIOUS TIMES & LOCATIONS FROM NOVEMBER 13-17, 2012 IN THE RICHMOND, VA AREA

## What if you could prevent even one family from hearing the words “you have cancer”?

This year, you can fight back against cancer by enrolling in the American Cancer Society’s new research study called the Cancer Prevention Study-3 (CPS-3). By joining CPS-3, you can help researchers better understand the genetic, environmental and lifestyle factors that cause or prevent cancer, which will ultimately save lives.

## Who can join the study?

The study is open to anyone who:

- Is willing to make a long-term commitment to the study, which involves completing periodic follow-up surveys at home for the next 20 - 30 years
- Is between 30 and 65 years old
- Has never been diagnosed with cancer (not including basal or squamous cell skin cancer)

## How can you participate?

Participation is easy. Your initial enrollment requires two steps and will involve the following:

- After scheduling your enrollment appointment, you will receive a confirmation e-mail with instructions to go online and complete your first, most comprehensive survey. This survey will ask you questions regarding medications you are taking, family history of cancer, lifestyle and other behaviors and will take approximately 45 - 60 minutes to complete.
- At your appointment, you will be asked to sign an informed consent form, complete a brief survey, and provide a waist circumference measurement and a small blood sample (similar to a doctor’s visit). The blood sample will be taken by a certified, trained phlebotomist. Your appointment should last approximately 20 - 30 minutes.

To schedule your appointment, visit:

[CPS3Richmond.org](http://CPS3Richmond.org)

## What else can you do?

Make sure to bring friends with you when you show up to change the world. And tell everyone you know about this historic opportunity to save lives and fight for every birthday threatened by every cancer in your community.

“If you have ever had a friend or family member diagnosed with cancer, one of the hardest things is feeling like we can’t do anything to help. CPS-3 is something we can do to help in the fight against this disease.”
